

Ask Your Friends Career Exploration Exercise

Your friends, family, and/or colleagues sometimes know you better than you know yourself. Send an e-mail or call your friends and family and ask:

1. What job or business do you see me being successful in?
2. What job or business do you see me enjoying?
3. What job or business do you see me having passion about?
4. Who do you know that is happy in their job? Do they do something that you think I could do? If so, what is it?
