

## Creating a Leadership Vision

A Leadership Vision is a mental picture of what your future will look like as a leader. It is more effective if you write it as if it were already true.

The more specific the picture, the more powerful the effect it will have on your leadership approach.

Some leaders prefer to create a full picture of their future as a leader and some like to create a short memorable statement. Other leaders like to create both.

Alternatively, we've seen leaders create a story or example that illustrates their Leadership Vision.
